

ARBOR RESOURCES, LLC

Right-of-Way Maintenance Contracting Corporation

Safety IS Our Attitude

608 Doug Warner Road · Diboll, Texas 75941

ABOUT OUR COMPANY

Arbor Resources, LLC is a **Right-of-Way Maintenance/Vegetation Management Contracting Corporation** for electrical cooperatives, utility companies, and beyond. We are a certified WBE woman-owned business and Texas HUB established in 2014 by a third generation ROW contracting family spanning over 50 years. Arbor Resources, LLC is meeting the needs and leading the way in today's vegetation management standards with a continuous focus on safety, quality, productivity, and customer satisfaction.

LOCATION

The office of Arbor Resources, LLC is located in Diboll, Texas. The location in East Texas and the Piney Woods gives our company an upper hand in understanding the extreme need for ROW maintenance/vegetation management combined with the importance of providing and maintaining quality services. The weather and climate can change in a hurry as well as over extended periods of time and the ability to depend on high quality services can make an incredible difference. The choice a provider makes not only will prevent interruption of vital services needed by communities served by our customers but will provide safer conditions for their own customers.

SERVICES

As a ROW maintenance contracting corporation, we provide vegetation management services to maintain clear, clean, and trim ROWs for utilities as well as transmission lines, new line clearance, and more. Our employees and staff also have experience with storm/ice storm restoration and natural disasters specifically Hurricanes Katrina, Rita, and Ike. We provide trained specialists to insure a highly qualified billing and payroll program for customers and employees in combination with a wireless program to manage our mobile workforce, safety, and productivity.

EQUIPMENT

Arbor Resources, LLC prides itself in the use of the most modern and most effective mechanical tree trimmers. Our fleet of high quality aerial lift equipment provides additional effective means of trimming and fine-tuning the ROWs. We also have trained experienced climbers on staff. For ground crew, clearing, and clean-up purposes, we provide tractors, skid steers, grapples, chippers, and hauling equipment to keep our customer's ROW in top notch condition. Arbor Resources, LLC also has an active preventative maintenance program to ensure all equipment is in the best working condition. In an effort to assess our fleet daily we have implemented an internal company specific mobile wireless program allowing accurate and immediate communication about equipment conditions. The years of experience combined within our corporation have found these methods of service to be the SAFEST, most modern, productive, and effective means for vegetation management with a subsequent result of highly satisfied customers.

Safety IS Our Attitude

“Safety IS Our Attitude” is a visible statement seen and felt throughout Arbor Resources, LLC. In our industry, safety plays the major and most significant roll. Our goal is to provide quality services in the safest means possible so everyone will return home safely at the end of the day. Arbor Resources, LLC enforces compliance with OSHA regulations and ANSI standards. With a TCIA Certified Safety Treecare Professional (CTSP) on staff we continue to strongly focus on our safety program through education and technology. We provide employee training in the Electrical Hazards Awareness Program, First Aid, and CPR annually. We hold quarterly company-wide safety meetings and perform monthly internal on-site safety audits. To ensure safe working environments, we have established an internal wireless program so all safety communication and documentation is immediately received by our administrative staff and appropriate superiors. We require daily job safety assessments for all job sites, tail-board meetings, and equipment inspections. Arbor Resources, LLC also provides an employee incentive program to ensure that safety is of utmost importance. We are always exploring new and proven ideas for improving safety and are working diligently towards additional certifications and accreditation.
